PROFESSIONAL SUMMARY

Frontend Engineer with 4 years of experience building scalable, high-performance SaaS applications using React.js. Skilled in micro frontends, AWS SDK, performance optimization, and delivering clean, reliable, and scalable solutions. Strong foundation in CS fundamentals, DSA, OOP, DBMS/SQL and C++.

SKILLS

Programming Languages	React.js, Next.js, SQL, TypeScript, JavaScript, C/C++, HTML5, CSS3
Databases and Frameworks	Micro Frontend, PostgreSQL, React-Router, Redux, RTK Query, Redux-Saga, AWS-SDK, React-DND, React-RND, i18next, Ant Design, Fabric.js
Developer Tools/Cloud	Linux, Docker, CI/CD, Cursor.ai, Copilot, Mina, Git, Husky, Jira, Figma, CRA, Vite, Jest, Vitest, RTL, ESLint, Postman, Webpack
Certifications	AWS Academy Cloud Foundations, Zensar Employment Training

EXPERIENCE

Josh Software, Pune - Software Engineer Jan 2022 - Present

- **Delivered multiple features end-to-end from scratch**, including requirement analysis, architecture design, API integration, testing, and deployment ensuring rapid delivery in fast-paced environments.
- **Achieved 30–40% improvement in frontend performance** across multiple SaaS platforms by introducing **code-splitting, lazy loading, and memoization**, enhancing UX and reducing load times.
- **Automated UAT and staging deployments with Mina scripts**, cutting deployment time by **50%** and improving release efficiency.
- **Reduced production bugs by 35%** by improving testing coverage and enforcing coding standards using **Husky, ESLint**, and pre-commit hooks.
- **Built and optimized dynamic drag-and-drop components** using recursive patterns and JSON schemas, delivering a **60% reduction in time-to-build UI components** on the **Dubai Tech No-Code Platform**.

PROJECTS

Rsense – Centralized Education SaaS Platform. Built a multi-tenant SaaS with 15+ modules (Admissions, Academics, HRMS, Finance) using React.js, ROR, and AWS. Developed SSO and RBAC systems reducing auth issues by 80% and built reusable file services boosting upload speed by 40%. Enabled real-time dashboards for CXOs.

Dubai Technology – No-Code Application Builder. Created a drag-and-drop app builder with recursive components and dynamic JSON schemas, cutting UI build time by 60%. Developed custom component library with Ant Design, added i18n + RTL for Arabic clients, and integrated IAM + workflow modules for business logic control.

KEY ACHIEVEMENTS

- Received **client appreciation twice** from the Founder and Senior Project Manager of **Product-based company Brandscope (Australia)** for consistent delivery and high-quality solutions.
- Collaborated directly with **CTO** on 3 key projects and also with the client who is **Founder of Brandscope**.
- Conducted React.js training for new joiners; rated **5/5** by trainees and awarded **Best Trainer of the Year**
- **Mentored 25+ developers** on React and Git while also **leading 35+ interviews** for senior and campus hires, contributing to skill growth, team expansion, and managerial evaluations.

LEADERSHIP

- **Led two projects** (teams of 14 & 8) as team and tech lead, handling tasks estimations and distributions according to expertise, end-to-end team management while taking full ownership of team delivery.
- Former **Chess Team Captain (Grades 7–10)** and **State-Level Chess Player**

EDUCATION

BE, Computer Science, K.K. Wagh College Of Engineering, Nashik (CGPA - 9/10)

2017 - 2022
